## EQUIPMENT CERTIFICATION

20 January 2021

*Issued to:*

Edcon Power Tongs and Oilfield Services Ltd.  
Box 209  
Lac La Biche, AB  
T0A 2C0

**Equipment:** ..... **AOT Side Door Casing Elevator**  
**Model:** ..... **7"x90°, SLX 65-ton, c/w Safety Latch Lock**  
**Edcon Equipment #:** ..... **701**  
**Stamped:** ..... **T&T 54119**  
**Hi Quality Machine WO#:** ..... **11820**  
**T & T Field Report #:** ..... **54119**  
**Engineering File #:** ..... **210124233**

The above-mentioned equipment required a Level IV inspection, repairs and certification for service. T & T Inspections 2019 Ltd conducted the magnetic particle inspection and visual examination.

Based on the inspection and review of critical dimensions and components, it is our opinion that the equipment is a safe operating unit and may be returned to service within the manufacturer's original ratings and specifications.

This certification is valid for a period of 500 operating days, as per the recommendations provided by the Canadian Association of Oilwell Drilling Contractors, or until the unit has been damaged either as a result of operation, transportation or handling.

APEGA Permit to Practice:  
P 14816
