EQUIPMENT CERTIFICATION

20 January 2021

Issued to:

Edcon Power Tongs and Oilfield Services Ltd.
Box 209
Lac La Biche, AB
T0A 2C0

Equipment:	AOT Side Door Casing Elevator
Model:	6-5/8"x90°, SLX 150-ton, c/w Safety Latch Lock Pin
Edcon Equipment #:	707
Stamped:	T&T 45102
Hi Quality Machine WO#:	11815
T & T Field Report #:	45102-21
Engineering File #:	210124227

The above-mentioned equipment required a Level IV inspection, repairs and certification for service. T & T Inspections 2019 Ltd conducted the magnetic particle inspection and visual examination.

Based on the inspection and review of critical dimensions and components, it is our opinion that the equipment is a safe operating unit and may be returned to service within the manufacturer's original ratings and specifications.

This certification is valid for a period of 500 operating days, as per the recommendations provided by the Canadian Association of Oilwell Drilling Contractors, or until the unit has been damaged either as a result of operation, transportation or handling.

APEGA Permit to Practice:
P 14816
