EQUIPMENT CERTIFICATION

20 January 2021

Issued to:

Edcon Power Tongs and Oilfield Services Ltd.
Box 209
Lac La Biche, AB
T0A 2C0

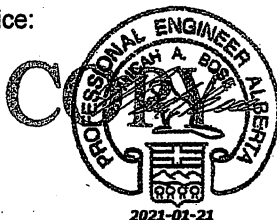

Equipment: **Web Wilson Side Door Casing Elevator**
Model: **7 $\frac{3}{4}$ " x 90°, 100-ton, c/w Safety Latch Lock**
Pin
Edcon Equipment #: **749**
Stamped: **T&T 50104**
Hi Quality Machine WO#: **11813**
T & T Field Report #: **50104-21**
Engineering File #: **210124229**

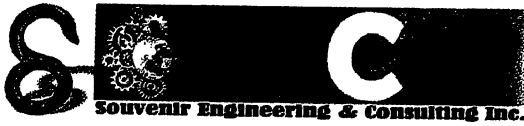

The above-mentioned equipment required a Level IV inspection, repairs and certification for service. T & T Inspections 2019 Ltd conducted the magnetic particle inspection and visual examination.

Based on the inspection and review of critical dimensions and components, it is our opinion that the equipment is a safe operating unit and may be returned to service within the manufacturer's original ratings and specifications.

This certification is valid for a period of 500 operating days, as per the recommendations provided by the Canadian Association of Oilwell Drilling Contractors, or until the unit has been damaged either as a result of operation, transportation or handling.
