## EQUIPMENT CERTIFICATION

6 November 2020

*Issued to:*

Edcon Power Tongs and Oilfield Services Ltd.  
Box 209  
Lac La Biche, AB  
T0A 2C0

Equipment: .....Web Wilson Side Door Casing Elevator  
Model: .....7", 100-Ton  
Stamped: .....T&T 53152  
Equipment #: ..... 782  
T & T Field Report #: .....53152 & 53152 R1  
Engineering File #: .....200624133

The above-mentioned equipment required a Level IV inspection, repairs and certification for service. T & T Inspections 2019 Ltd conducted the magnetic particle inspection and visual examination.

Based on the inspection and review of critical dimensions and components, it is our opinion that the equipment is a safe operating unit and may be returned to service within the manufacturer's original ratings and specifications.

This certification is valid for a period of 500 operating days, as per the recommendations provided by the Canadian Association of Oilwell Drilling Contractors, or until the unit has been damaged either as a result of operation, transportation or handling.

APEGA Permit to Practice:  
P 14816
