

EQUIPMENT CERTIFICATION

Rev 1: 6 January 2021

Issued to:

Edcon Power Tongs and Oilfield Services Ltd.
Box 209
Lac La Biche, AB T0A 2C0

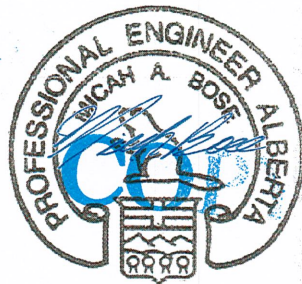

Rig #: 868
Equipment: BJ TA Casing Elevator
Model: 8"-90°, 150-Ton, c/w Safety Latch Lock
Equipment #: 868
Stamp: T&T 52113
T & T Field Report #: 52113
Hi Quality WO#: 9563
Engineering File #: 181023894

The above-mentioned equipment required a Level IV inspection and certification for service. T&T Inspection conducted the magnetic particle inspection and visual examination (as per the above Report #).

Based on the inspection and the review of critical dimensions, it is our opinion that the equipment is a safe operating unit and may be placed in service within the manufacturer's original ratings and specifications.

This certification is valid for a period of 500 operating days, as per the recommendations provided by the Canadian Association of Oilwell Drilling Contractors, or until the unit has been damaged either as a result of operation, transportation or handling.

APEGA Permit to Practice:
P 14816
