EQUIPMENT CERTIFICATION

5 January 2021

Issued to:

Edcon Power Tongs and Oilfield Services Ltd.
Box 209
Lac La Biche, AB
T0A 2C0

Equipment: **Web Wilson Side Door Casing Elevator**
Model: **9 5/8", 150-Ton**
Edcon Equipment #: **948**
Stamped: **T&T 52213**
Hi Quality Machine & Oilfield WO#:..... **10392**
T & T Field Report #: **52213**
Engineering File #: **200624130**

The above-mentioned equipment required a Level IV inspection, repairs and certification for service. T & T Inspections 2019 Ltd conducted the magnetic particle inspection and visual examination.

Based on the inspection and review of critical dimensions and components, it is our opinion that the equipment is a safe operating unit and may be returned to service within the manufacturer's original ratings and specifications.

As per the recommendations provided by the Canadian Association of Oilwell Drilling Contractors Recommended Practice 4.0, this certification is valid for a period of 6 years, or until the unit has been damaged either as a result of operation, transportation or handling.

APEGA Permit to Practice:
P 14816
